autism, reduced motor-function or other
access challenges*

Included in the box

1. Sovereign 2 player
(with rechargeable battery)
2. Mains adaptor / charger (USB C)
3. User guide

1. Play / Pause button

Press button during playback to pause audio, and again to resume.

2. Track Back / Rewind button

Click to skip back a track or hold down to rewind within the current track.

3. Track Forward / Fast-forward button

Click to skip forward a track or hold down to fast-forward within the current track.

4. Reset / Skip Book (folder) button

Click to skip to the next book (folder) or hold down to reset to the beginning of track 1, book (folder) 1.

5. USB Port

Insert stick into the port (nb - it will only fit one way).

6. LED Indicator:

Red: charging (switches off on full charge).

Blue: Power on.

Blue flashing: playback.

Blue/red flashing: playback and charging.

Red flashing: low battery.

7. On / Off / Volume control

Rotate clockwise to switch on. You will hear a mechanical 'click' and an audible tone.

8. Headphone Socket (round)

Use headphones with a mini-jack (3.5mm) connector.

9. USB C Power / Charger socket

Playing Memory Sticks

Simply insert and switch on. The player will automatically find the audio and start playing. Use the other controls to navigate the audio content.

Bookmarking

The player will automatically remember the last position it played across multiple memory sticks.

Connecting with a Bluetooth source

Connecting with a Bluetooth source does not require any buttons to be pressed on the player. Simply switch on the player (with no USB stick inserted) and search on your Bluetooth device (Phone, Tablet etc) for 'Sovereign' or 'Bluetooth Speaker' and then connect. On successful connection you will hear a tone played. NB - when a USB stick is inserted Bluetooth is disabled.

Battery and Charging

We recommend your first charge be for 6-8 hours and thereafter charge for 1-2 hours as required. We recommend you do not leave the charger plugged in all the time but if you do please be aware this may reduce the batteries operating life.

To plug in the USBC charger please line-up and carefully insert until it is seated. Caution - minimal force is needed and excessive force or rough handling may damage the connector

To remove the battery click out once the over has been removed. Line up the new battery with the gold contacts and replace the cover.

Low Battery Warning: Three beeps are played when the battery is low (about 5 mins before expiry). This is repeated 2 mins later and then every 10 seconds until the battery expires.

Using Headphones

The headphone socket is located on the front of the player to the left of the volume control. Only 'mini-jack' / 3.5mm connectors will fit.

USB C Charger / PSU

Your Sovereign 2 is supplied with the latest generation USB C Charger / PSU.

This Charger / PSU has been designed for ease of use and handling with the following features:

1. 3D tactile design for ease of identification and handling
2. USB C connector which is both reversable and compatible with other USB C devices
3. High contrast design, strengthened, woven cable

General Safety

Do not allow this product to be exposed to liquids, steam or sand.
